

How Straighten Twisted Pair Wire

- 1) Save the cable jacket and separate the four cable wires
- 2) Slide the cable jacket between the twisted pairs
- 3) Untwist the wire by pushing the wire in the opposite direction of the twist.
- 4) When you reach the end, pinch the wire inside and pull outward to straighten.

Slide wires thru the EZ-RJ45 Connector

Arrange wires in the proper order

Twist the wires and slide the connector into the cable jacket for a tight fit.

Crimp & Finished!!

Wire Stripper

- Designed for stripping the jacket on Cat 5, 5e cables.
- Will not nick inner conduct.

15015 **\$11.95**

Crimp Tool for EZ-RJ

- Tool steel die head assembly provides 360° of connector support during crimp.

100054C **\$86.95**

The EZ-RJ45 Connectors, simplify twisted pair terminations by allowing the wire to be inserted through the connector and out the front. This allows the technician to easily verify the proper wiring order. Electrical performance of the termination is optimized by pulling the connector down over the cable jacket and seating it tightly in the rear of the connector. It also guarantees that the wires will be properly flush to the front of the connector.

202003J	EZ-RJ45® Connectors, 100 Pc. Jar	\$62.00
202035J	Strain Relief for EZ-RJ45 Cat 5e Connector, Jar of 100	\$24.00
202010J	EZ-RJ45® Cat 6+ Connectors, 100 Pc. Jar	\$70.00

Twisted Pair Crimp Tools

Modular Crimp Tool

TeleMaster™ Crimp Tool Kit

- Tool for RJ-11(1,2,3pair) & RJ-45 (4pair) plugs
- 10 4-Position, RJ-11 Stranded Modular Plugs
- 10 6-Position, RJ-11 Stranded Modular Plugs
- 10 8-Position, RJ-45 Stranded Modular Plugs

33-700 TeleMaster™ Crimp Tool Kit **\$54.45**

Ratchet Telemaster

- Ratchet version of popular Telemaster™ Tool for RJ-45 and RJ-11 modular plugs.
- Telephone tool cuts, strips, & crimps.
- Repeatable crimp action for high quality connections

30-696 Ratchet Telemaster **\$68.90**

All-in-one crimping tool for Western Electric (WE)/Stewart Stamping (SS)-type, 6- and 8- position modular telephone plugs. Cuts & strips. Ratchet controlled to master the tension of the tool for ease of use.

- Embedded flat cable cutter and stripper.
- Crimps 8- position RJ45 connectors and 4- and 6- position RJ11 and RJ12 connectors.
- Crimps AWG 28-24 telephone and data cables.

11212530 Modular Crimp Tool **\$49.00**

Telemaster Kits

33-750:

- Basic termination kit for 10Base-T
- Includes, UTP/Coax Stripper, Telemaster RJ-11/RJ-45 Tool, (50) 8-Position RJ-45 Non-Keyed Solid Plugs

33-704:

- Basic kit with multifunctional telephone tool to cut, strip, and crimp
- Kit includes, Telemaster™ for RJ-11/RJ-45 Plugs, (15) 4-Position, RJ-11 Stranded Modular Plugs, (15) 6-Position, RJ-11 Stranded Modular Plugs, (15) 8-Position, RJ-45 Stranded Modular Plugs

33-750	Economy 10Base-T Telemaster Kit	\$115.00
33-704	RJ-45, RJ-11 Telemaster™ Kit	\$78.00

33-750

33-704

Data/Video Kit

Kit includes professional tools to terminate both coax and twisted pair cables. VDV gives user the ability to test terminated cables.

- Data/Video Kit
- Data T-Cutter
- 7-in-1 Screwdriver
- UTP Stripper
- Coax Stripper w/ replacement Cartridge
- Punchmaster II Punch Down Tool w/ 110 Blade
- 110/66 Blade combo punch down blade
- Crimpmaster Crimp Tool for RJ-45 Modular Plug
- OmniSeal XL Compression Tool
- Probe Pic and Spudger
- F/BNC Connector Insertion/Removal Tool
- VDV Multimedia Cable Tester
- Amplifier Probe
- Electrician's Scissors w/ Stripping Notch
- Large Mouth Bag- 13 in.

33-917 Data & Video Kit **\$519.95**

HDMI® (High-Definition Multimedia Interface) is a compact audio/video interface for transmitting uncompressed digital data. It is a digital alternative to consumer analog standards, such as radio frequency (RF) coaxial cable, composite video, S-Video, SCART, component video, D-Terminal, or VGA. HDMI® connects digital audio/video sources (such as set-top boxes, DVD players, HD DVD players, Blu-ray Disc players, AVCHD camcorders, personal computers (PCs), video game consoles and AV receivers to compatible digital audio devices, computer monitors, video projectors, tablet computers, and digital televisions.

Now with the cost effective Greenlee Professional Field Terminating HDMI®* Solutions, reduced cable clutter and custom length cables are just minutes away.

Pro Deluxe Kit

- Make custom length, premium HDMI® cables.
- Eliminates cable clutter.
- Costs less than pre-terminated cables.

Kit Includes:

- PA1192 HDMI® HDFT™ Cable Prep Tool
- PA8700 HDMI® HDFT™ Termination Tool
- (10) HDCN24-10 HDMI®* Field Terminating Connectors
- PA1175 Media Cable Cutter
- TC-30 Deluxe Carrying Case

Pro Kit

- Make custom length, premium HDMI® cables.
- Eliminates cable clutter.
- Costs less than pre-terminated cables.

Kit Includes:

- PA1192 HDMI®* HDFT™ Cable Prep Tool
- PA8700 HDMI®* HDFT™ Termination Tool
- HDCN24-10 HDMI®* Field Terminating Connectors

PA4017	Pro Deluxe Kit	\$199.99
---------------	----------------	-----------------

PA4019	Pro Kit	\$169.99
---------------	---------	-----------------

24 AWG Field Terminating Cable

- Use with Greenlee® HDFT™ Connectors.
- Make premium HDMI®* High Speed with Ethernet cables.
- Supports HDMI®* 1.4 features: 3D, Ethernet and Audio Return.
- 100' 24 AWG HDFT™ cable.
- Solid-core long grain copper.
- Fifth twisted pair for Ethernet and audio return.

- Other HDMI®* 1.4** features supported: 10.2 Gbps Data Rate, 3D Video Formats, Deep Color and 4k x 2k Resolution.

HDMI Field Terminating Connectors

- Make custom length, premium HDMI® cables.
- Eliminates cable clutter.
- Costs less than pre-terminated cables.
- 10 or 50 pack – 24 AWG HDFT™ Connector Components.

- Use With Greenlee® 24 AWG HDMI®* Field Terminating Cable only.
- Includes main connector terminal block and wire guides.
- Guides are mated and color coded for 24 AWG HDMI Field Terminating cable.
- Make custom length, premium HDMI®* High Speed with Ethernet cables.

FTHD24-100	24 AWG HDMI Field Terminating Cable	\$299.00

HDCN24-10	HDMI Field Terminating Connectors (10 Pack)	\$68.00
HDCN24-50	HDMI Field Terminating Connectors (50 Pack)	\$299.99

HDMI Cables

Designed to ensure a perfect transfer of digital video & multi channel audio signal.

- Supports resolutions 480i, 480P, 1080i, 1080P
- Version 1.3B
- Gold-Plated connectors

Supports 1080P, 3D & 4k over HDMI. Ethernet Channel will allow ethernet enabled HDMI devices to share ethernet connections with other HDMI devices without the need for a separate ethernet cable.

Connect your workstations, printers, servers, and other devices with these cat.5E or cat.6 patch cables

- Connects RJ45 Male to RJ45 Male.
- Designed-in Snag-Less moldings
- The 50-Micron Gold Plated Connectors maintain High Bandwidth & Maximum Data Signal Integrity
- Made of Lead-Free & Environmentally Safe Materials

RJ45 Plug Lock-in Device

PANDUIT

Flush - Works with flush mount jacks

PSL-DCPL	10 RJ45 plug lock-in device (1) install tool	\$42.95
PSL-DCPL-C	100 RJ45 plug lock-in device (5) install tools	\$335.00

Recessed - works with recessed jacks

PSL-DCPLR	10 RJ45 plug lock-in device (1) install tool	\$42.95
PSL-DCPLR-C	100 RJ45 Plug lock-in device (5) install tools	\$335.00

The RJ45 plug lock-in device is an innovative solution that secures connection to reduce network downtime, data security breaches, and hardware replacement due to theft.

The versatile design works with most existing patch cords, faceplates, patch panels, IP cameras & other IP devices

*Install tool is also needed to remove lock-in device

Gigabit Loopback Jack & Plug

The Gigabit Loopback Jack & Plug quickly and easily checks the RX/TX pairs of 1000 BASE network cables, helping a network technician determine if a network signal exists or if there are broken or shorted wires within the cabling. Also is backwards compatible with 10base and 100base networks.

Ethernet Crossover Adapter

The SuperLooper Gigabit Crossover Adapter converts any standard Ethernet patch cable to a crossover cable for 1000 BASE networks. Used with a standard ethernet patch cable, this product can network two computers in a gigabit networks without requiring a hub

ST034LT02-07-001	Gigabit Crossover Adapter	\$6.95
-------------------------	---------------------------	---------------

Category 6 Patch Panel Couplers and Jack Couplers

PANDUIT

- Coupler panel ports provide fast and easy plug and play connection of 6 and 8-position RJ45 patch cords
- No tools required
- Designed to exceed performance requirements of the ANSI/TIA-568-C.2 Category 6 and ISO 11801 2nd Edition Class E channel standards
- Contacts plated with 50 microinches of gold for superior performance
- Can be clearly identified with optional labels and icons
- Mounts to standard EIA 19" rack or 23" racks with optional extender bracket

- Designed to exceed requirements of the ANSI/TIA-568-C.2 Cat 6 & ISO 11801 2nd Edition Class E channel standards
- Meet requirements of IEEE 802.3af and IEEE 802.3at for PoE applications
- module provides plug and play connection of 6 & 8-position RJ45 cords
- No tools required
- Contacts plated with 50 microinches of gold for superior performance

CP24688BL	24-port, Category 6, patch panel	\$320.00

*Replace IW (White) for BL for Black.

Hubbell's NextFrame® XXL cable management vertical organizers have been designed for today's high density, high port count applications providing a simplistic way to manage and organize any type of communications cable.

The XXL design addresses two issues: larger cable diameter and separation of cables. XXL vertical organizers allow for the management of patch cords in the front and horizontal cable in the rear. Instead of combining cables from adjoining bays ('H' - Style), the XXL vertical organizers separate managed bundles on either side of the "Y", providing improved identification and access.

XXL's open design leaves horizontal cable unimpeded and accessible, while simplifying bundling and neatly securing them in place, allowing for future expansion with minimal effort.

Airflow

- Intuitive design optimizes airflow by creating designated cable pathways away from center of cabinet
- Can be used in front to rear, side to side, and bottom to top airflow configurations

Security

- 3-Point door locking system
- Standard locks for side covers

Administration

- Easier to identify and trace ports and cables
- Cable management spools with label fields to identify bundles of cable
- Unobscured cable pathways simplify tracing cables

Space Utilization

- Enhanced cable management features allow cable storage in the cabinet

Response Time

- Rack positions are identified on all four uprights aiding the installation of new gear
- Cable management spools snap into place
- Optional split rail kits maximize cabinet utilization by accommodating servers and switchgear in one cabinet

Aesthetics

- Stylized look enhances appearance of any computer room
- Cable management focused design manages and conceals cable bundles

NEXTSPEED® Category 6, Universal Patch Panels

Consolidation points are an interconnection between the telecom room to the telecom outlet. Using consolidation points, new wiring for a work station in an open office environment need extend only as far as the consolidation point, not all the way back to the telecommunication room. This provides for increased flexibility and economy when work stations require frequent re-configuration.

NEXTSPEED® Ascent 40 Gbs QSFP+ passive copper cable assemblies are tuned cabling components designed and balanced to exceed industry standard performance specifications for InfiniBand QDR, 40G Ethernet, and SAS Channel applications.

Ascent 40 passive copper assemblies are compliant with the InfiniBand Architecture, SFF-8436 specifications and provide connectivity between devices using QSFP ports.

Ascent 40 passive copper assemblies are a cost-effective short link connectivity solution for the data center and are available in a wide range of wire gauges and lengths from 24-30AWG in lengths from 0.5m for 30AWG to 10m for 24AWG.

Don't jeopardize your network: NEXTSPEED® Ascent 40 QSFP+ copper cable assemblies are the product for the digital world. They significantly reduce power consumption and EMI emission, providing a migration path for tomorrows emerging network applications.

- Patent Pending PairShield™ Minimizes Crosstalk
- Ergonomic Easy Plug and Play Connection
- 40 GIG-IB-QDR Certified
- Reduce Power Consumption and EMI Emission

Features:

- Options up to 8m for 40Gb/s applications.
- Controlled termination for lowest multi-aggressor crosstalk to assure error free interconnects.
- Low insertion loss.
- BER better than 10⁻¹⁵.
- Serial numbers printed on each end.

Applications

- Data center
- InfiniBand 4X SDR, DDR, QDR
- Ethernet 10G, 40G
- Rapid IO
- Myrinet 40G
- Top of Rack (Server-to-Server)
- HPC Server Clusters
- Storage Area Networks (SANs)
- Enterprise Data Center Networks

Specifications:

Cable Construction:

- TwinAx: Fully shielded differential pairs.
- UL style CL2 or CM.
- Impedance: 100. +/- 10 OHMS.
- DC blocking caps (0.1uF) on Rx only.
- EEPROM programmed per SFF8436.
- IC module select buffer included.

Plug Material:

- Pads – Gold plated over nickel over copper base material.
- Shell & Latch Mechanism – Zinc die cast; nickel over copper plating.

Mechanical:

- Latch retention force: 90N (20.2lbs) min.
- Durability - 250 Cycles.

Environmental:

- Operating Temperature Range: - 20 °C to 75 °C.

BIDnet™ Pre-terminated Assemblies

BIDnet™ (Building Infrastructure Design for Networking) Pre-terminated Assemblies are the ideal solution for data centers, open office and other applications where accuracy, reliability and performance are required.

BIDnet Pre-terminated Assemblies provide simplicity for permanent links between switches, servers and patch panels, MUTOAs and zone distribution areas, enabling easy MACs (moves, adds and changes) to the infrastructure.

Featuring 100% factory tested assemblies that reduce installation time and labor, compared to traditional field terminated permanent links.

Go Green with BIDnet Pre-terminated Assemblies - BIDnet assemblies are provided to the exact specification length reducing jobsite waste.

Applications

- Server to Server
- Switch to Switch
- Patch Panel to Patch Panel
- Intra-Cabinets
- MUTOAs
- Zone Distribution areas
- Open Office
- Modular Furniture

Introducing a breakthrough in zero-u pathway support and routing

In mission critical data center networks, physical infrastructure must provide the right avenue for upgrades and system maintenance as well as flexibility for future growth. Leviton's Floor-Mounted Pathway Support is the ideal solution to meet these requirements. This unique frame provides a full support for pathway lighting, power, cabling, and other infrastructure.

The Floor-Mounted Pathway Support solves three main issues in data centers (DC):

1. Rapid Swap-Out and Staging

Many DCs accomplish equipment changes or additions via an entire cabinet swap-out. With the Floor-Mounted Pathway Support, racks and cabinets are not attached to the overhead infrastructure, allowing power and cabling to be quickly disconnected from the cabinet without removing hardware. Connections within the cabinet can be easily disconnected, making room for new equipment to be rolled in & connected.

2. Overhead Space and Access

In many facilities, access to the ceiling in the DC may be limited due to blockage by utility ducting and pipe or because the height requires substantial labor. Also, the roof structure may not allow the added weight from cables and ladder trays. Pathway Supports can carry the load and avoid obstructions while freeing up rack space by adding patching above cabinets or racks.

3. Time and Labor savings

Installing overhead-suspended ladder trays on tall ceilings is cumbersome and time consuming. When ladder trays and wiring baskets are hung from the ceiling it is necessary to 'thread' the cable and trunks through all of the ceiling supports, adding to the labor at the time of initial installation and whenever moves, adds, or changes (MACs) are made. Using Floor-Mounted Pathway Supports can reduce installation time by 40% in a typical installation.

* Ordering instructions for frame height and width:
1. Determine the upright height (XXX inches)
2. Determine cross member width (YY inches)

Max. and Min. Frame Dimensions		
	Max	Min
Height (xxx)	112"	82"
Width (yy)	48"	24"

Features

- Flexibility – design a custom system for your needs
- Works w/any cabinet, cable tray, ladder or raceway, including Leviton Fiber Raceway System
- Scalable for growth: add more at any time
- Mounting pads do not interfere w/cabinet wheels
- System accessories require no rack unit space
- Grounding and bonding ready

Benefits

- Better for high ceiling data centers
- Enables offline cabinet build out
- Easy to add/remove pre-configured trunks/cabling
- Reduced installation costs & less on-site problems
- Allows expansion w/o disruption of operations
- Allows efficient management of infrastructure
- Minimizes installation time and risk
- Expedites time to "live operation"

Design Considerations

Frame loading: Max. mounted equipment weight shall not exceed 400 lbs. when frames are installed 8' apart, bearing upon 2, 102"H x 42"W frames joined by 2 sections of 1 5/8" x 1 5/8" 12-gauge steel channel,

- Recommended max. span between frames is 8'
- Recommended that Unistrut® Metal Framing System be mounted between pathway supports
- Follow TIA recommendations for grounding

Physical Specifications

Dimensions: See following page for details
Height: Max 112", Min 82"
Width: Max 48", Min 24"
Materials: Steel – 24-AWG powder-coated black
Packaging: Boxed and palletized - Flat

Accessories

- Sub Floor Mounting kit – plate for bottom of a raised floor tile that accepts standard threaded rod
- C-Brackets create a two-tier mounting surface for ladder trays or wire baskets. Available in a variety of sizes: 6/6", 8/8", 12/8", 20/8", 20/18", 24/20", 20/24"
- Left/Right brackets to mount standard steel channel framing to span the pathway support
- Patch Panel Bracket – A bracket that is mounted on the steel channel above the cabinet and accepts standard 19-in patch panels or other fiber enclosures providing up to 4U of additional patching capability
- Frame drill template – custom to your support system

Key Features

- Stylish and innovative design for today's most advanced networks and settings
- Removable sliding tray releases from front or rear of enclosure to facilitate field terminations and splicing
- Sliding tray glides forward and backward providing accessibility to front and rear of bulkhead after installation
- 17" depth for high density fi ber termination and/or splicing
- Removable, hinged doors & slide away covers allow easy access during install & visibility of interior after install
- Accepts injection molded splice trays and 4" x 7" metal splice trays
- Removable rubber grommets route pre-terminated fi ber trunks, protect cables, and minimize dust build up
- Patch cord bend radius guides minimize macro bending of routed fibers
- Stackable, adjustable, and multi-position configurable fi ber rings simplify cable management
- Constructed of durable polycarbonate plastic & 16-gauge steel, powder-coated black
- Multiple mounting bracket positions for 19" or 23" rack & cabinet (23" 1RU mounting bracket sold separately)
- Adjustable mounting bracket extends enclosure 4" from rail
- Accessory kit consists of cable ties, mounting ear screws, port ID labels, and spiral wraps (for cable protection)
- Optional cable strain relief mounting kits (for installation on side of enclosure or on rack post)

- Sliding tray (optional in 1RU & 2RU) removes completely from enclosure for ease of field terminations & splicing
- Sliding tray glides (w/stop) forward & backward, providing accessibility to front & rear bulkhead after installation
- 15" depth for high-density fi ber termination and/or splicing
- Stackable & adjustable fi ber rings simplify cable organization
- Front saddles pivot for improved patch cord routing
- Removable front & rear covers for better access to interior of enclosure
- Removable rubber grommet allows for pre-terminated fiber trunk install, protects cable, & dust build-up
- Accepts injection molded splice trays & 4" x 7" metal splice trays
- Constructed of 16-gauge steel, powder-coated black
- Capable of storing up to 3 meters of 900 µm tight buffered fiber per adapter
- Adapter plate on 3RU/4RU orients horizontally or vertically for optimal density
- Accessory kit consists of cable ties, ear screws, port ID label, & spiral wrap (cable protection for sliding tray units)
- Optional cable strain relief mounting kits (for installation on side of enclosure or on rack post)

Adapter Plates

Key Features - Opt-X

- Unique design works w/ Leviton's exclusive Opt-X series, including the advanced Opt-X Ultra, Opt-X 1000i & Opt-X 500i enclosures
- Using Opt-X style plates or modules allows use of up to fifteen (15) plates or modules (even quad LCs) in a 4RU enclosure

Leviton Fiber Enclosures support two styles of Adapter Plates or MTP® Modules*; Opt-X & LightSpace (LGX® footprint). Select the appropriate style for your enclosure.

Splice Trays

Key Features - Injection Molded Plastic Splice Trays

- 12-fiber mini and 24-fiber high density splice trays
- Accommodate 250 and/or 900 µm single-mode and multimode fibers
- Protect and manage heat shrink style spliced fibers
- Ratchet action clamps with foam rubber padding prevents damage to fibers
- Multiple tie down holes to secure incoming fiber
- Installable in Leviton Opt-X Series Fiber Enclosures
- 12-fiber splice tray installable in Leviton Network Interface Devices (NIDs)

12-Fiber Mini, 4" x 7" x 0.35"	T47HS-P06	\$22.35

1RU and 4RU High Density Angled Panels

- Holds up to 48 fiber channels or 48 copper ports per rack unit
- Accepts up to 8 copper cassettes per RU
- Accepts up to 8 single height or 4 double height fiber cassettes per RU
- Mounts on standard 19" relay racks or cabinets

e2XHD 1RU Panel Capacity with 24-fiber MTP Cabling		
Application	Max # of fibers	Max # of channels
10GbE	96	48
40GbE	192	24
100GbE	768	32

The e2XHD Patching System provides simple termination & improved cable routing for both fiber & copper applications. The system includes 1RU & 4RU angled panels, copper & fiber snap-in cassettes, & accessories for additional cable protection & management. The e2XHD cassettes quickly snap in & pull out of the high density angled panel, making installation, moves, adds, & changes easier than ever. Copper cassettes are available either on pre-terminated trunks or with field-terminated connectors, & fiber cassettes are pre-terminated. Panel covers & blank cassettes offer extra protection from dust & damage.

- Panels allow mix-and-match of Leviton fiber and copper snap-in cassettes
- Adjustable MTP® adapter swivels, allowing for easy routing of incoming MTP cables
- Copper cassettes are available either on pre-terminated trunks or kitted with field-terminated eXtreme CAT 6A or CAT 6 connectors
- Copper connectors easily snap into cassette after termination
- Accessories include a rear cable manager that snaps directly into the panel, blank cassette inserts, & a top cover for angled panel, minimizing dust/debris

e2XHD Copper Cassette Kit**e2XHD Fiber Cassettes**

MTP-LC 24-Fiber Core Cassette

MTP-LC 12-Fiber Core Cassette

1x24-Fiber to 3x8-Fiber MTP-MTP Core Cassette

2X12-Fiber to 3X8-Fiber MTP-MTP Edge Cassette

MTP-LC 24-Fiber Edge Cassette, Rear

MTP-MTP Pass-Through Core Cassette

- Used exclusively with e2XHD High Density Angled Panels
- Supplied as a kit with cassette and six CAT 6A or CAT 6 QuickPort Connectors
- Connectors snap into cassette after termination
- AXT barrier reduces alien crosstalk between ports
- Cassettes are also available pre-terminated on Leviton trunk cables

- Used exclusively with e2XHD High Density Angled Panels
- Allows for simple migration path to 40GbE or 100GbE networks with MTP® cassettes
- Leviton-designed MTP adapter swivel allows for easy cable routing and proper bending radius
- TIA Method B polarity installations require one core cassette for each edge cassette; White fiber cassettes designate edge, and black designate core

- MTP to MTP trunk cables support 40/100G speeds
- Terminations available in 24-, 12-, and 8-fiber configurations
- Migration solution to 40/100G from existing 10G networks with premium 12-fiber MTP trunk configuration
- Up to 70% faster install than field-terminated trunks
- All orders customized for cable type, length, staggering, fiber count, and labeling
- 100% factory tested, w/test results included for each assembly
- All assemblies labeled with serial number and length for traceability and easy re-order

OPT-X Unity 40/100G MTP Array Harnesses

- Pre-terminated MTP to MTP connectors in laser optimized multimode
- Custom short length cable for cabinet/rack patching
- Custom staggering available
- Used in conjunction w/MTP brackets or adapter plates
- 100% factory tested, w/test results included for assemblies
- All assemblies labeled with serial number and length for traceability and easy re-order
- For use in attaching directly to 40/100G transceivers
- Used in 12- or 24-fiber cabling systems
- Color coded boots

Pre-Terminated Trunk Cables

- Plug-n-play fiber eliminates the need for field terminations or splices
- Up to 70% faster install than field-terminated trunks
- All orders customized for length, staggering, connector type, breakout style, fiber count, and labeling
- Discrete connectors are heat-cured and use ceramic for rules and sleeves for optimal performance
- Optional pulling eye protects connectors & eases installation
- Available in LC, MU, ST, SC, FC, MT-RJ, and MTP
- Industry-best turnaround time on delivery
- 100% factory tested, w/test results included for each assembly
- All assemblies labeled with serial number and length for traceability and easy re-order

Pre-Terminated Copper Trunks

- Custom configured for length, connector type, & more
- Fast and easy installation with reduced labor costs
- 100% factory tested, with test results available
- CAT 6A trunks all use Leviton's component-rated connectors, which provide guaranteed performance in short lengths
- UTP connectors utilize Leviton's patented Retention Force Technology (RFT) for consistent system reliability
- Plugs feature clear SlimLine design with snagless strain relief boot

- Terminated ends offered in staggered or even cut
- Customized breakout length from braided sleeve improves installation flexibility and appearance
- Each assembly receives an individualized serial number, & individual cables are numbered relative to that serial number
- Pre-terminated assemblies are eligible for Leviton's limited lifetime product, system, and performance warranties
- Breakout distances can be even or staggered

Universal panels feature 6-port RJ45 modules on the front, industry standard 110-style punchdown on the rear, & T568A/B universal wiring configurations. QuickPort Patch Panels are pre-loaded with black eXtreme 6+ connectors. 48-Port, angled design provides improved access to 110 punchdown fields, & increased density with enhanced patch cord transition to vertical cable management. For high density applications choose eXtreme 6+ 1RU 48-Port Patch Panels. This patch panel doubles density in applications where space is at a premium. Robust design, die-cast aluminum construction, & the included sturdy cable management bar support increased cable loads.

Gigamax Universal Patch Panel

Leviton's GigaMax 5e Patch Panels and Patch Blocks are ideal for modular cross connection and available in a multitude of port densities to meet the needs of high-speed data applications.

The patch panel shall meet or exceed the requirements for Category 5e described in TIA/EIA-568-B as well as the Class E requirements described in ISO/IEC 11801-B. The panels shall feature both T568A and T568B wiring configurations, white IDC 110-punchdown modules, mounting standoffs for cable management bars, color-coded front window labeling, and a termination standoff for patch panel earthing/grounding.

FCE1U	Holds up to four QuickNet™ Cassettes, FAP adapter panels, or FOSM splice modules: 1.73"H x 17.60"W x 16.30"D	1	1	\$214.95
FCE1UA	Open access. Holds up to 4 QuickNet Cassettes, FAP adapter panels, or FOSM splice modules: 1.73"H x 17.60"W x 16.30"D	1	1	\$214.95
FCE2U	Holds up to eight QuickNet™ Cassettes, FAP adapter panels, or FOSM splice modules: 3.48"H x 17.60"W x 16.30"D	2	1	\$256.55
FCE4U	Holds up to twelve QuickNet™ Cassettes, FAP adapter panels, or FOSM splice modules: 6.98"H x 17.60"W x 16.30"D	4	1	\$345.00

[^]One rack space = 1.75" (44.5mm).

Opticom Rack Mount Fiber Enclosures

- Mount to standard EIA 19" rack rails
- Suitable for all pre-terminated, field terminated, or field-splice applications
- Up to four cassettes or FAPs per rack unit for maximum patch field density
- Slide-out, tilt-down drawer provides full front access to all fibers and cables
- Integral bend radius control and cable management for fiber optic patch cords
- Rear cable management for proper slacking/spooling of trunk cable break-outs & interconnect cables
- Include fiber optic cable routing kit (grommets, cable ties, spools, strain relief bracket, and ID/caution labels) for various cable management solutions

Part #	Part Description	# of Rack Spaces [^]	Std. Pkg. Qty.	
FRME1U	Up to 3 FAP/FMP adapter panels or FOSM splice modules. Bidirectional sliding drawers provides front/rear access to fibers: 1.74"H x 17.00"W x 14.20"D	1	1	\$181.65
FRME2U	Up to 6 FAP/FMP adapter panels or FOSM splice modules. Bidirectional sliding drawers provides front/rear access to fibers: 3.48"H x 17.00"W x 14.20"D	2	1	\$225.00
FRME3	Up to 9 FAP/FMP adapter panels. Fixed bulkhead design: 5.00"H x 17.16"W x 11.80"D	3	1	\$249.65
FRME4	Up to 12 FAP or FMP adapter panels. Fixed bulkhead design: 6.62"H x 17.16"W x 11.80"D	4	1	\$285.00

[^]One rack space = 1.75" (44.45mm). Optional locks available for rack mount enclosures. All product color is black.

Opticom Rack Mount Fiber Trays & Patch Panels

- Mount to standard EIA 19" rack rails
- Standard front or angled front options
- Use with Opticom Fiber Adapter Patch Panels (below) to protect fibers and terminations
- Can be used as a back box for select Mini-Com Patch Panels
- Removable top cover provides access to connections, fibers, and slack storage in rear of tray
- Include fiber optic cable routing kit (grommets, cable ties, spools, strain relief bracket and ID/caution labels) for various cable management solutions

Part #	Part Description	# of Rack Spaces [^]	Std. Pkg. Qty.	
Standard Fiber Mount Trays				
FMT1	Mount w/CFAPPBL1 fiber adapter patch panel to hold up to 4 QuickNet Cassettes, FAP, and FMP adapter panels: 1.75"H x 17.16"W x 11.16"D	1	1	\$109.65
FMT2	Mount w/CFAPPBL2 fiber adapter patch panel to hold up to 8 QuickNet Cassettes, FAP, or FMP panels. Dimensions: 3.48"H x 17.16"W x 11.16"D	2	1	\$123.75
Standard Fiber Adapter Patch Panels				
CFAPPBL1	Flat fiber patch panel. Holds up to four FAP or FMP adapter panels.	1	1	\$21.10
CFAPPBL2	Flat fiber patch panel. Holds up to eight FAP or FMP adapter panels.	2	1	\$26.45
Angled Fiber Mount Trays				
FMT1A	Mount w/CFAPPBL1A angled fiber adapter patch panel to hold up to 4 FAP or FMP adapter panels. Dimensions: 1.75"H x 17.16"W x 11.16"D	1	1	\$130.25
FMT2A	Mount w/CFAPPBL2A angled fiber adapter patch panel to hold up to 8 FAP or FMP adapter panels. Dimensions: 3.48"H x 17.16"W x 11.16"D	2	1	\$145.60
Angled Fiber Adapter Patch Panels				
CFAPPBL1A	Angled fiber patch panel. Holds up to four FAP or FMP adapter panels.	1	1	\$38.40
CFAPPBL2A	Angled fiber patch panel. Holds up to eight FAP or FMP adapter panels.	2	1	\$48.15

[^]One rack space = 1.75" (44.45mm). All product color is black.

- Accept QuickNet Copper Cable Assemblies & QuickNet SFQ Series MTP* Fiber Optic Cassettes which snap in and out with one hand
- High-density patch panels conserve valuable rack space
- Angled patch panels facilitate proper bend radius control & minimize the need for horizontal cable managers
- All metal patch panels accept shielded cassettes, no additional grounding kit required
- Pre-printed numbers above each port for easy identification
- Mount to standard EIA 19" racks or 23" racks with optional extender brackets
- Label/label cover kit (QPPLC24) provides port and panel identification for 24-port patch panels

Opticom MPO Fiber Optic Adapter Panels (FAPs)

FAPH0412BLMPO

FAPH0612BLMPO

FAPH0812BLMPO

FAPH1212BLMPO

- Loaded with TIA/EIA-604 FOCIS-5 compliant adapters
- Exceed TIA/EIA-568-C.3 requirements
- Screen printed for horizontal or vertical orientation
- Designed for multimode or singlemode MPO connectors, patch cords, or cable assemblies
- Snap quickly into the front of all Opticom and Opticom QuickNet Components
- Can be used with Opticom Zero RU Cable Management Solutions and QuickNet Hydra Cable Assemblies to facilitate connection to the active equipment

Part Number	Part Description	
FAPH0412BLMPO	Opticom MPO FAP loaded w/(4) key-up/key-up MPO fiber adapters; oriented horizontally	\$133.35

LC Opticom Fiber Adapter Panels (FAPs)

- Loaded with TIA/EIA-604 FOCIS-10 compatible adapters
- Exceed TIA/EIA-568-B.3 requirements
- Snap quickly into the front of all Opticom components
- LC fiber adapter panels are Sr./Jr. to conserve enclosure space
- Accept FOCIS-10 compatible senior LC connectors at either end and FOCIS-10 junior LC connectors at the inside end for behind the wall applications
- Both ends accept FOCIS-10 compatible senior LC connectors
- Junior end also accepts FOCIS-10 compatible junior (fixed ferrule/springless) LC connectors
- Choice of phosphor bronze or zirconia ceramic split sleeves to fit specific network requirements; zirconia ceramic split sleeves are recommended for OM3/OM4 multimode and OS1/OS2 singlemode applications
- Every adapter is laser marked with Q.C. number to assure 100% traceability

Part #	Part Description	
LC Fiber Adapter Panels – 10Gig OM3/OM4 50/125µm (Aqua Adapters)		
FAP6WAQDLCZ	LC 10Gig FAP loaded w/6 LC 10Gig™ Duplex MM Fiber Adapters (Aqua) w/zirconia ceramic split sleeves.	\$87.45

FQX0-12-10

FQ5-12-10

FQ9-12-10

- Compatible w/QuickNet Patch Panels for up to 96 fiber connections in 1RU with QAPP48HDBL QuickNet 48-port Angled Patch Panel
- Low insertion loss of 0.5dB max. per cassette & 1.0dB max. per standard cassette; system meets IEEE 802.3ae max. channel loss specification of <2.6dB Return loss >26dB (10Gig MM) >20dB (MM) >55dB (SM)
- Connect together w/high-density female MTP cable assemblies as interconnecting network segments for deploying a remote or data center location in minutes
- Significantly reduce installation time & labor by eliminating field connector terminations
- Insertion loss data provided on every fiber cassette
- Return loss data provided on all singlemode fiber cassettes

Part Number	Part Description	
Optimized 10Gig 50/125µm (OM3) Multimode SFQ Series MTP Cassettes		
FQX0-12-10	Optimized OM3 10Gig 50/125µm Six LC duplex adapters to one male MTP; 12-fiber optimized pre-terminated MTP rear mount cassette provides low insertion loss of 0.5dB max. per fiber. Method A.	\$455.00
10Gig 50/125µm (OM3) Multimode SFQ Series MTP Cassettes		
FQX-12-10	OM3 10Gig 50/125µm Six LC duplex adapters to one male MTP; 12-fiber pre-terminated MTP rear mount SFQ cassette provides low insertion loss of 1.0dB max. per fiber.	\$380.00
50/125µm (OM2) Multimode SFQ Series MTP Cassettes		
FQ5-12-10	OM2 50/125µm Six LC duplex adapters to one male MTP; 12-fiber pre-terminated MTP rear mount cassette provides low insertion loss of 1.0dB max. per fiber.	\$335.00
62.5/125µm (OM1) Multimode SFQ Series MTP Cassettes		
FQ6-12-10	OM1 62.5/125µm Six LC duplex adapters to one male MTP*; 12-fiber pre-terminated MTP rear mount cassette provides low insertion loss of 1.0dB max. per fiber.	\$335.00
9/125µm (OS1/OS2) Singlemode SFQ Series MTP Cassettes		
FQ9-12-10	OS1/OS2 Singlemode Six LC duplex adapters to one male MTP; 12-fiber pre-terminated MTP rear mount cassette provides low insertion loss of 1.0dB max. per fiber.	\$455.00

QuickNet High Density SFQ Small Form Factor Cable Assemblies

- Identical copper and fiber cassette form factor offers design flexibility, easy maintenance and upgrade enabling a unified, highly scalable pre-terminated solution
- High-density design maximizes density with up to 72 fibers in one cassette, 576 in 1RU; combination of design features provide a lower total cost of ownership
- Pre-terminated modular cassette system provides quick deployment that reduces installation time and cost.
- Product identification with data labels and QC numbers which are supplied with each product for quick port identification and 100% traceability

Part #	Part Description

QuickNet MTP Fiber Optic Cassettes

FCZ-12-10Y

FC6-24-10Y

FC6STMFCSY

- Compatible with Opticom QuickNet Rack Mount Fiber Cassette Enclosures, Opticom Zero RU Cable Management Solutions, and Opticom Wall Mount Enclosures, for up to 96 fiber connections in 1RU
- Low insertion loss of 0.5dB max. per optimized cassette and 1.0dB max. per standard cassette; ensures system meets IEEE 802.3ae max. channel loss specification of <2.6dB
- Return loss: >26dB (10Gig multimode), >20dB (multimode), >55dB (singlemode)
- Adapter housing colors follow TIA/EIA-568-C.3 suggested color identification scheme
- Connect together with high-density female MTP* cable assemblies as interconnecting network segments for deploying a remote or data center location in minutes
- Insertion loss data provided on every fiber cassette
- Return loss data provided on all singlemode fiber cassettes
- 10Gig OM3 50/125µm Fiber Cassettes are tested per IEEE 802.3ae 10 GbE to support network transmission speeds up to 10 Gb/s for link lengths up to 300 meters and up to 550 meters for OM4 at 850nm; backward compatible with all 50/125µm (OM2) MPO or MTP* system requirements

Part Number	Part Description	
Optimized 10Gig 50/125µm (OM3) Multimode MTP Cassettes		
FCX0-12-10Y	Optimized OM3 10Gig 50/125µm 6 LC duplex adapters to one male 12-fiber pre-terminated MTP connector.	\$415.00

FC6STMFCSY	Six ST simplex adapters to one male MTP; 6-fiber pre-terminated MTP cassette provides low insertion loss of 1.0dB max. per fiber; singlemode (OS1/OS2) fiber	\$720.30

Call for Volume Discounts

- Connectivity meets or exceeds TIA/EIA-568-B.3 and ISO/IEC 11801 performance requirements
- LC and SC connector housing and boot colors follow TIA/EIA-568-C.3 suggested color identification scheme
- Jacketed cable is compliant with NFPA 262 (OFNP) flame rating
- MTP (12-fiber) connectors are FOCIS-5 compliant
- Insertion loss per mated pair: 0.50dB typical, 0.75dB max.
- Traditional connectors (Panduit LC, SC, and ST) provide design flexibility throughout the data center
- Insertion loss per mated pair: 0.10dB typical, 0.30dB max. (multimode); 0.25dB typical, 0.50dB max. (SM)
- Factory terminated and 100% tested for insertion loss (test data supplied with each assembly); SM and 10Gig MM Hydra Cable Assemblies also tested for return loss
- TIA/EIA-568-B.1-7 standards based polarity supports 10 Gb/s, multimode, and singlemode fiber types, and allows infrastructure backwards compatibility for component interchangeability and a lower cost of ownership
- 10Gig™ laser optimized fiber is tested per IEEE 802.3ae 10 GbE to support network transmission speeds up to 10 Gb/s for link lengths up to 300 meters at 850nm
- Application specific designs available to tailor configuration, reach, and breakout construction to application requirements; for more information contact

[^]Additional lengths and availability: The above lengths and configurations are stock items. For other lengths or configurations, contact Customer Service for actual lead times.

QuickNet MTP Interconnect Cable Assemblies – Multimode 10Gig 50/125µm (OM3 and OM4)

- Pass all TIA/EIA-568-B.3 performance requirements
- FOCIS-5 compliant
- Insertion loss per mated pair: 0.50dB typical; 0.75dB max.
- Tested per IEEE 802.3ae 10 GbE to support network transmission speeds up to 10 Gb/s for link lengths up to 300 meters for OM3 and up to 550 meters for OM4 at 850nm with 50/125µm (OM3 and OM4) laser optimized fiber
- Backward compatible with all 50/125µm (OM2) MPO or MTP system requirements
- Factory terminated and 100% tested for insertion loss
- Insertion loss and return loss data recorded for every 10Gig Multimode Interconnect Cable Assembly
- Lifetime traceability of test data to a Q.C. number on each cable assembly

Part #	Part Description	Length (m) [^]	
MTP Interconnect Cable Assemblies – Multimode 10Gig™ OM3 50/125µm			
FX12D5-5M1Y	Female MTP to female MTP 12-fiber interconnect cable assembly (one female MTP connector on each end on ribbon interconnect cable) – 10Gig 50/125µm. Outside diameter: 5mm x 2.5mm.	1	\$275.95

For OM4 interconnect assembly, replace the X (FX12D5-5M1Y) with Z (FZ12D5-5M1Y). [^]Additional lengths and availability: Interconnect cable assemblies are available in 1 – 10 meter lengths in 1 meter increments, and 15, 20, 25 and 30 meter lengths. To order lengths other than 1 meter, replace the 1 after the M (FZ12D5-5M1) with the desired length (FZ12D5-5M2 for 2 meter length). The above lengths are stock items. For other lengths or male MTPs, contact Customer Service for actual lead times.

QuickNet MTP Interconnect Cable Assemblies – Multimode 50/125µm (OM2)

- Pass all TIA/EIA-568-B.3 performance requirements
- FOCIS-5 compliant
- Insertion loss per mated pair: 0.50dB typical; 0.75dB max.
- Factory terminated and 100% tested for insertion loss
- Insertion loss data recorded for every multimode cable assembly
- Lifetime traceability of test data to a Q.C. number on each cable assembly

Part #	Part Description	Length (m) [^]	
F512D5-5M1Y	Female MTP to female MTP 12-fiber interconnect cable assembly (one female MTP connector on each end on ribbon interconnect cable) – 50/125µm.	1	\$249.60

[^]Additional lengths and availability: Interconnect cable assemblies are available in 1 – 10 meter lengths in 1 meter increments, and 15, 20, 25 and 30 meter lengths. To order lengths other than 1 meter, replace the 1 after the M (F512D5-5M1Y) with the desired length (F512D5-5M2Y for 2 meter length). The above lengths are stock items. For other lengths or male MTPs, contact Customer Service for actual lead times.

Call for Volume Discounts

- Connectivity meets or exceeds TIA/EIA-568-B.3 and ISO/IEC 11801 performance requirements.
- Jacketed cable is compliant with NFPA 262 (OFNP) flame rating.
- MTP (12-fiber) connectors are FOCIS-5 compliant.
- Insertion loss per mated pair: 0.50dB typical, 0.75dB max.
- Panduit proprietary MTP* polishing provides low insertion loss and high return loss, minimizing variability for improved channel link loss performance.
- TIA/EIA-568-B.1-7 (Method A) standards based polarity supports 10 Gb/s, MM, and SM fiber types, & allows infrastructure backwards compatibility for component interchangeability and a lower cost of ownership.
- 10Gig laser optimized fiber is tested per IEEE 802.3ae 10 GbE to support network transmission speeds up to 10 Gb/s for link lengths up to 300 meters at 850nm.

Opti-Core Traditional Trunk Cable Assemblies

- Connectivity meets or exceeds TIA/EIA-568-B.3 and ISO/IEC 11801 performance requirements
- LC and SC connector housing and boot colors follow TIA/EIA-568-C.3 suggested color identification scheme
- Jacketed cable is compliant with UL1666 (OFNR) or NFPA 262 (OFNP) flame rating
- Insertion loss per mated pair: 0.10dB typical, 0.30dB max. (MM); 0.25dB typical, 0.50dB max. (SM)
- Traditional connectors (Panduit LC, SC, and ST) provide design flexibility throughout the data center
- Factory terminated and 100% tested for insertion loss (test data supplied with each assembly); SM and 10Gig MM Trunk Cable Assemblies are also tested for return loss

QuickNet Cable Assemblies

- Allow quick network deployment compared to field-terminated installations
- 100% performance tested to electrical permanent link specifications; shipped with permanent link test data
- Terminated in factory controlled environment for consistent network performance
- Pre-bundled with six cables for easy installation
- Plenum or riser cable flame ratings
- Category 6 UTP and Category 6A UTP/Shielded performance levels available
- Available in many common standard lengths and in one foot increments from 10 to 295 feet
- Enable multiple termination types including, pre-terminated cassettes, jack modules, modular plugs, plug pack and/or unterminated options

Description	Cable Type	Part # Template	Available Lengths (in feet)

- Each port contains a universal label that is color-coded for T568A & T568B wiring schemes
- Angled versions allow for higher density applications by easily routing the patch cords to each side of the panel eliminating the need for horizontal cable management
- Terminate 4-pair, 22 – 26 AWG, 100 ohm, solid or stranded twisted pair cable
- Mount to standard EIA 19" rack or 23" racks w/optional extender bracket

Mini-Com Jack Modules

- Each jack is 100% tested to ensure NEXT and RL performance and is individually serialized for traceability
- No punchdown tool required; termination tool (EGJT) ensures conductors are fully terminated by utilizing a smooth forward motion without impact on critical internal components for maximum reliability
- Can be re-terminated a minimum of twenty times
- Terminate 4-pair, 22 - 26 AWG, 100 ohm, solid or stranded twisted pair cable
- Universal termination cap is color-coded for T568A and T568B wiring schemes

NetManager High Capacity Horizontal Cable Managers

- Innovative inset fingers slope inward toward back of managers offering unobstructed access to network cabling for easier moves, adds, and changes
- Large front finger openings easily accommodate Category 6 and 10 GbE cables, speeding installation and reducing maintenance costs
- Rear cable management finger spacing utilizes open D-rings for greater accessibility
- Can be used to create large capacity horizontal pathways for routing cable
- Patented front and rear dual hinged cover allows cable access without removing cover
- Curved surfaces maintain cable bend radius
- Built in cable retainers hold cable in place for easy moves, adds, and changes
- Mount to 19" EIA racks and cabinets
- Covers, #12-24 and M6 mounting screws included
- Design fits to the front of the NetRunner High Capacity WMPVHC45E/WMPVHC45E Vertical Managers

*Based off of Cat 6 (.250) Cable **Includes extended front covers & 2 bend radius clips.

1. PatchRunner Vertical Manager

- High density minimizes area required for network layout, freeing up floor space
- Fingers support cables as they go to the pathway removing the need for horizontal managers
- Individual fingers can be removed w/o a tool for routing of cable bundles
- Slack management spools organize patch cord slack allowing standardization of patch cords

Vertical Manager - Manage Cable on Front and Rear of Rack			Rack Space*	Price
PRV12	Vertical cable manager, Dimensions: 83.9"H x 12.0"W x 16.4"D		45	\$610.00
PRV8	Vertical cable manager, Dimensions: 83.9"H x 8.0"W x 16.4"D		45	\$465.00
PRV6	Vertical cable manager, Dimensions: 84"H x 6"W x 16.4"D		45	\$415.00
Vertical Manager - Manage Cable on Front of Rack Only				
PRVF12	Vertical cable manager, Dimensions: 83.9"H x 12.0"W x 9.7"D		45	\$390.00
PRVF8	Vertical cable manager, Dimensions: 83.9"H x 8.0"W x 9.7"D		45	\$335.00
PRVF6	Vertical cable manager, Dimensions: 83.9"H x 6.0"W x 9.7"D		45	\$305.00

Includes 4 PRSP7 slack spools except for PRV6 and PRVF6. *One rack space = 1.75" (44.45mm).

Vertical Manager - Doors			Rack Space*	Price
PRD12	Dual hinged metal door, Dimensions: 82.8"H x 12.1"W x 1.6"D		45	\$325.00
PRD8	Dual hinged metal door, Dimensions: 82.8"H x 8.1"W x 1.6"D		45	\$205.00
PRD6	Dual hinged metal door, Dimensions: 82.8"H x 6.1"W x 1.6"D		45	\$185.00

- NetManagers manage & protect cables between patch panels on 19" EIA racks
- Capacities are based on a fill rate of 40%
- Dual Hinged Covers conceal cable pathway & provide easy access w/o removing the door
- For comparison, multiply by 1.25 for a fill rate of 50%

Waterfall Accessories

- Easy to install waterfall kit maintains bend radius control in both vertical and horizontal directions
- Base attaches to either the rung or stringer on most ladder racks
- Modular components let user configure each location where cable management is required

CMW-KIT	Waterfall kit. Provides bend radius control when transferring cables from ladder rack.	\$35.30
CMWB	Waterfall base. Maintains 1.75" radius when transferring cable off of ladder rack.	\$18.35
CMWW	Waterfall wing. used with CMWB to maintain 1.00" radius when transferring cable off ladder rack.	\$9.89

WM series cable managers provide increased strength and do not interfere with panels mounted above or below. They are a popular and economical solution for providing a clean and simple means of organizing small-to-large bundles of cables and patch cords.

WM-143-5	1U cable manager with 5 S143 hangers	\$40.45
WM-144-5	2U cable manager with 5 S144 hangers	\$38.25
WM-145-5	2U cable manager with 5 S145 hangers	\$44.75

Horizontal Cable Managers

Organize patch cords and maintain a required bend radius. Available in a wide variety of styles to suit any application. The D-Ring provides a creative solution for adding individual D-Rings to a rack or on a wall using appropriate fasteners. Select styles also available in 23" panel widths. For optimal performance, do not exceed a 50% fill rate when passing cables through cable rings. Finished in a durable black power coat.

Part #	Description	Width	Ring Fill Area	Price
HCM-1	1 3/4" (1 sp.) "micro-clip"	19"	7/8"²	\$19.60
HCM-1V	1 3/4" (1 sp.) "micro-clip" w/end D-Rings	19"	7/8"²	\$34.75

HCM-1DV	1 3/4" (1 sp.) "D-Ring" w/end D-Rings	19"	3 1/8"²	\$34.75
HCM-2D	3 1/2" (2 sp.) "D-Ring"	19"	7 1/2"²	\$26.45
HCM-2DV	3 1/2" (2 sp.) "D-Ring" w/end D-Rings	19"	6 1/4"²	\$37.50
HCM-1DR	1 3/4" (1 sp.) "D-Ring" front and rear	19"	15"²	\$32.35
HCM-2DR	3 1/2" (2 sp.) "D-Ring" front and rear	19"	7 1/2"²	\$42.50

Hinged Horizontal Cable Managers

Conceal patch cables while providing cable strain relief with the new hinged horizontal wire managers. These 19" wire managers provide a strong method for organizing patch cords and maintaining the bend radius. the latching hinged front panel conceals cables dressed between components and cable chases.

HHCM-1	1 3/4" (1 space) Hinged Horizontal Cable Manager	\$32.35
HHCM-2	3 1/2" (2 space) Hinged Horizontal Cable Manager	\$36.45

Lacing Bars & Panels

Made for 1/4" diameter rod with flattened ends (model LBP-1R, LBP-1.5 and LBP-1R4) or 3/16" thick aluminum (model LBP-1S), & finished in a black coat, each bar provides convenient cable tie points. Model LBP-1R4 features a 4" offset & model LBP-1.5 features a 1 1/2" offset. Model LBP-1A, LBP-2A, LBP-4A and LBP-6A feature a formed "L" shape, cable tie slots, & are offered in straight and 2", 4", and 6" offset models. Covers, #12-24 and M6 mounting screws included.

Use the LBP-LTF when lacing large amounts of cable of mounting devices. Two rackspaces high, the LBP-LTF features a large flange, numerous cable tie points. (Lacer Panel sold in packs of 10)

Part Number	Lacer Bar Description	Length	Price
LBP-1R	Round Rod	19"	\$38.90
LBP-1S	Rectangular Bar	19"	\$38.90
LBP-1A	"L" Bar	19"	\$24.90
LBP-2A	"L" Bar 2" Offset	19"	\$42.70
LBP-4A	"L" Bar 4" Offset	19"	\$47.50
LBP-6A	"L" Bar 6" Offset	19"	\$53.95
LBP-1.5	1.5" Offset Round Rod	19"	\$56.00
LBP-1R4	4" Offset Round Rod	19"	\$62.35

Vertical Lacing Strips

Perforated steel lacer strips mount vertically to rackrail brackets and provide many locations for securing cable ties. Lacer strips can be cut down easily to smaller sizes. LACE-OWP and LACE-OP strips with tie posts for sliding on pre-wrapped cable bundles using 3/4" hook and loop straps or cable ties. Some lacer strips also accept cage nuts or mounting of select power strips for increased versatility. All strips sold in packs of 6

NEXTFRAME® reduces installation time to the barest minimum, because components easily snap together. All NEXTFRAME® components are secure, rugged, and reliable. NEXTFRAME® relies solely on steel construction: no plastic parts to wear or break. NEXTFRAME provide unmatched flexibility. The flexibility of this system allows for upgrades as your cross connect needs change.

NEXTFRAME® adapts to changing cable volumes and transition locations, always providing a T568 compliant structure for organizing incoming backbone cabling and patch cords.

Basic NEXTFRAME® components assembled on-site built particular organizers to meet special installation needs. The assemble-to-order nature of NEXTFRAME® also means that you pay only for the features you need as you need them.

Duct Panels

Features/Benefits

- 7-rings
- 6 pass-through holes.
- Hinged front cover.
- Conceals patch cords & enhances the network appearance.

Enhanced Panels

Features/Benefits

- 7-rings
- 6 pass-through holes.
- These panels can be upgraded through the use of accessories.

Vertical Management

Horizontal Management

Versi-Duct 8" Channel Cable Management

- Ideal for today's large-scale deployments & CAT 6A installations w/larger dia. cable
- 80" Channel ships in 40" pieces for easier handling and installation
- Channels available with standard or new designer cover
- Channels include cover, slack spools, and cable retainers and mounting brackets
- Included cover features unique, integrated dual-hinge for easy accessibility
- Same channels can be side or center mounted for better space utilization

Versi-Duct 5" Channel Cable Management

- Versatile accessories allow unique installation configurations
- 80" Channel now ships in two 40" pieces for easier handling and installation
- Interlocking tabs maintain flush channel alignment
- Finger spacing aligns with rack units.

Determine which Versi-Duct size meets your needs using this capacity chart. Find your cable type, and then select 5" or 8" Versi-Duct based on current fill rate and future expansion needs. TIA recommends using a maximum of 40% for total capacity. To allow for future growth, 50% fill rate is shown	Channel Size	CAT 6A (.354")		CAT 6 (.250)		CAT 5E (.180")	
		40% Fill	50% Fill	40% Fill	50% Fill	40% Fill	50% Fill
Versi-Duct Capacity (In Numbers of Cables)

**PR0360 features 10' cable with IEC 60A 2P/3W plug.

Mounting Brackets for Horizontal Power Strips

Adjustable mount brackets; allows numerous recess or flush mount options.	PRAMB	\$33.65
Panel mount brackets; ideal for zero 'U' mounting applications by effectively allowing the unit to be hung from a cross beam or flat surface.	PRPMB	\$17.35

Basic Rack PDU

Best value for simple power distribution

APC Basic Rack PDUs provide reliable power distribution via a single input with multiple output receptacles and distributes power from low amperage single phase circuits to higher-power 3-phase solutions.

NetShelter SX 42U 600mm Wide x 1070mm Deep Enclosure

Standard enclosure for low to medium density server & networking applications. Compact width to optimize data center space. 42U height to easily roll through doorways.

Includes: Baying hardware, Documentation CD, Key(s), Keyed-alike doors and side panels, Leveling feet, Mounting Hardware, Pre-installed casters, Side Panels

NetShelter SX 45U 600mm Wide x 1070mm Deep Enclosure with Sides Black

Feature-rich enclosures optimized for easy installation, managing cables, integrating power distribution, & maximizing airflow.

Includes: Baying hardware, Key(s), Keyed-alike doors and side panels, Leveling feet, Mounting Hardware, Pre-installed casters, Side Panels, User Manual

NetShelter SX 48U 600mm Wide x 1070mm Deep Enclosure

Tall enclosure with 48U spaces for additional equipment. Compact width to optimize data center space. For low to medium density server & networking applications.

Includes: Baying hardware, Documentation CD, Key(s), Keyed-alike doors and side panels, Leveling feet, Mounting Hardware, Pre-installed casters, Side Panels

NetShelter SX 42U 750mm Wide x 1070mm Deep Networking Enclosure with Sides

NetShelter SX Networking Enclosure expands APC's superior IT enclosure line with improved support for high density networking applications. Integrated high density cable managers and improved cable access roof provide support for large cable bundles. When combined with the Side Airflow Duct Kit, the Networking Enclosure ensures complete isolation of cold intake and hot exhaust air for large switches and SAN directors.

U2 Rackmount Shelf

These Easy-to-install universal shelves accommodate components up to 17 3/8" wide. Made from 16-gauge steel, finished in a durable black powder coat and individually boxed.

Part #	Racking Height	Overall Depth	Usable Depth	Weight	Price
U1	1 3/4" (1 Space)	10 3/4"	10 11/16"	35lbs.	\$28.75
U2	3 1/2" (2 Space)	14 9/16"	14 3/8"	50lbs.	\$42.50
U3	5 1/4" (3 Space)	14 9/16"	14 3/8"	70lbs.	\$52.65
U4	7" (4 Space)	15 1/2"	15 5/16"	85lbs.	\$58.35

Vented 2 Space Center-Mount Rackshelf

Ideal for use in our open frame racks. Constructed from 16-gauge steel & finished in durable black powder coat

Depth 18"
Height 3 1/2" (2 space)
Weight 50lb

U2MS	Vented 2 Space Center-Mount Rackshelf	\$74.50
------	---------------------------------------	---------

Vertical Wall Mount Panel

- Can accommodate all depths of equipment
- Mounts horizontally/vertically for versatile placement
- Heavy duty threaded rackrail
- Available in 2, 3 or 4 rackspace models

VPM-2	2 space, vertical wall mount panel	\$72.05
VPM-3	3 space, vertical wall mount panel	\$80.19
VPM-4	4 space, vertical wall mount panel	\$88.23

EZ Mount Network Shelf

The EZ Mount Network Shelf is the premier product of iNNData, LTD. It is the very first product of its kind to allow complete installation of a small LAN/Telecom network (up to 48 drops - expandable to a maximum of 96 drops) in an extremely limited space. It saves Space, Time and Money!

Includes:

- (8) 10-32 Screws
- (1) Ground Screw
- (4) 6" Velcro Strips
- Blank Plate
- Mounting Template
- Slots provided on shelf deck for tie-down w/velcro straps

EZMS	EZ Mount Network Shelf	\$199.00
------	------------------------	----------

EZ Mount Wall Swivel Bracket

The EZ Mount Wall Swivel Bracket was finally created after many suggestions from contractors and end users alike. It is the best solution for mounting up to a 48 port patch panel on a wall. It swivels within its own space, and, provides a solid punchdown surface, without the technician having to support the punchdown process with the other hand!

Includes:

- (8) 10-32 Screws
- (4) 12-24 Screws
- Ground Screw
- Locking Positions
- (1) each left and right hand bracket with swivel assemblies, rear wire manager.

EZMBL	EZ Mount Wall Swivel Bracket	\$85.00
-------	------------------------------	---------

Hinged Plexiglass Security Covers

Incorporating a steel frame and a keylocked 3/16" smoked-gray plexiglass door, our SECL Series locking security covers are offered in 2, 3, 4, and 8 space sizes. Each unit's depth of 1 1/2" easily clears controls on most equipment.

SECL-2	Hinged plexiglass security covers 3 1/2" (2 space)	\$57.65
SECL-3	Hinged plexiglass security covers 5 1/4" (3 space)	\$62.37
SECL-4	Hinged plexiglass security covers 7" (4 space)	\$67.07
SECL-8	Hinged plexiglass security covers 14" (8 space)	\$94.70

Fixed Writing/Computer Keyboard Shelf

The FWS fixed single bay writing/computer keyboard shelf bolts quickly to any 19" rack to create an ideal workspace. it occupies 2 rackspace and comes complete with special rail-mounting hardware.

Depth: 18" Capacity: 100lbs

FWS	Fixed writing/computer keyboard shelf	\$101.45
-----	---------------------------------------	----------

Vented 3 Space Rackshelf

17 3/4" deep by 5 1/4" high, this vented rackshelf has a 60lb. weight capacity and a rear flange slotted for horizontal cable management. Constructed from 16-gauge steel and finished in a black powder coat.

D: 17 3/4" W: 17.44" H: 5 1/4" (3 spaces) Capacity: 60lbs

U317	Vented 3 space rackshelf	\$70.79
------	--------------------------	---------

Wall Mount Shelf

Wall mounting non-rackmount components is much easier with our fully welded WMS wall mount shelf. The bottom is vented to help keep things cool and features 1/2" and 3/4" electrical knockouts for cable pass-through.

Depth: 17" Capacity: 200lbs.

WMS-20	Wall mount shelf	\$105.10
--------	------------------	----------

Wide Unit Shelf System

Accommodating components too wide to fit the 17 3/8" inside width of standard rackselves, these shelf systems fit units up to 22 1/2" wide, and either bolt into millwork or to the mounting angle of standard rackrail.

Measuring 5 1/4" high, this shelf saves room by requiring no rack-spaces. The WUSS system comes complete with a pair of ears, a bottom, and appropriate assembly hardware.

NOTE: This rackshelf works with all Middle Atlantic Product enclosures with the exception of the VMRK-54, which uses 'Z-Rail'.

Part #	Depth	Capacity	Price
WUSS11.5	11 1/2"	50lbs	\$65.61
WUSS14*	14"	50lbs	\$63.88
WUSS15.5	15 1/2"	50lbs	\$65.61
WUSS17.5	17 1/2"	50lbs	\$68.46
WUSS20.5	20 1/2"	50lbs	\$73.04

*Available in 14" depth - fits DWR Series and other shallow racks!

The OneTouch™ AT Network Assistant is an all-in-one Gigabit Ethernet troubleshooter for copper, fiber optic and Wi-Fi networks. It provides a client view of network performance so you can resolve problems fast and complete deployment projects on time.

- Reduce troubleshooting time with a one touch AutoTest and an intuitive user interface
- Identify the source of a network problem by measuring the performance of essential network infrastructure and services
- Increase the troubleshooting expertise of your network support staff with standardized test profiles tailored to your network, services and users
- Resolve the most difficult problems faster by streamlining collaboration between your support staff, consultants & manufacturers by utilizing inline packet captures and remote control
- Deploy network infrastructure & services more efficiently & validate and optimize its performance with a comprehensive AutoTest & Veri-Fi wireless LAN operational performance test

All-in-one

The OneTouch AT incorporates two 10/100/1000 Mbps RJ-45 Ethernet test ports, two 100/1000 Mbps SFP fiber optic transceiver ports and an internal 802.11 a/b/g/n dual band radio. Test your wired Ethernet & wireless Wi-Fi networks & easily compare performance with side-by-side results.

Solve complex issues

Capture traffic when a packet-level view is required to solve a network or application issue. Filter the traffic to capture what is most important. Export the capture file via the management port or SD card to your favorite protocol analyzer for decoding and analysis.

Performance measurement from the cable to the cloud

The cause of a network problem can be elusive. The OneTouch AT identifies problem root cause by measuring and analyzing the performance of the critical network components: the network cabling, the delivery of Power over Ethernet, the connection to the nearest switch, the connection to the nearest access point, and the performance of key network services and applications.

Tap into the relevant traffic easily

Use the built-in inline aggregating copper and fiber optic TAP to access the traffic running between the client and the network. Avoid the complexity, time & cost required to configure switch mirror ports or to install standalone TAPs.

General	
Dimensions	10.3 in x 5.3 in x 2.9 in
Weight	3.5 lb (1.6 kg)
Display	5.7 in (14.5 cm) LCD with projected capacitance touch screen, 480 x 640 pixels
AC adapter	Input: 100-240 Vac, 50-60 Hz, 1.0 A Output: +15 Vdc, 2.0 A Battery type Lithium ion battery pack, 7.2 V
Battery life	Approximately 3-4 hours depending on type of usage, 4 hours to charge from 10% capacity to 90% capacity with the unit powered off

Management port	One RJ-45 10/100BASE-T Ethernet
Wi-Fi adapter data rate	802.11a: 6/9/12/24/36/48/54 Mbps 802.11b: 1/2/5.5/11 Mbps 802.11g: 6/9/12/24/36/48/54 Mbps 802.11n (20 MHz): MCS0-23, up to 216 Mbps 802.11n (40 MHz): MCS0-23, up to 450 Mbps

Copper and fiber optic cable testing

Understand cable performance by measuring twisted pair cable wiremap and length. Use cable identifiers and IntelliTone toning to locate and identify cables. Measure the optical power received through fiber optic cables. Verify the cleanliness of fiber optic connections by viewing connector end faces with the FiberInspector USB video probe.

Save test results

Save the AutoTest performance data in a PDF report to share with colleagues or outside parties, for trouble ticket documentation, as a record of historical performance for benchmarking & as a certification report after a new infrastructure deployment.
